Strong LEGS Build Student Success!

Login to Study Island!

Study Island is essential to your success at MVCA. Students are required to complete ALL assigned lessons for the school year. Your ultimate goal is to earn blue ribbons on every lesson. The requirement is that you attempt a minimum of 10 questions on each lesson. During the year, you must stay caught up with all assignments in Study Island.

Execute ALL Assessments!

During the school year, you will be completing assessments. Your daily lessons will have assessments to complete in the OLS to show that you understand the content. In addition, the OLS will have mid-unit checkpoints, unit checkpoints, and semester exams. Finally, students are required to complete NWEA and Scantron assessments in the fall and spring along with the Michigan state assessment either to be held in the spring or fall (MEAP or whatever it will be called this year).

Get through OLS Daily Plan!

Each day you have your daily plan to complete in the OLS. Working with fidelity means that you work hard each day to secure your learning on your required lessons. It is your responsibility to complete all tasks on your plan so that you do not fall behind in your courses.

Stay Engaged!

Be sure to check kmail at least twice a day and respond to the teacher appropriately. Always attend required class connect sessions and PARTICIPATE! When you have a question, ASK!
